

Garbage separation and disposal instructions

- Uonuma City (all areas)
- Minami-Uonuma City (Yamato area)

**Disposal times
by 8:00 a.m. on the day of collection**

Do not take out garbage except on a collection day.

- Leave your garbage at the designated place in time to be collected by the city garbage collection truck. Refer to the "Household garbage calendar" for garbage collection days.
- To dispose of oversized garbage, a reservation is needed.

〒946-0057
707-1 Nakajima, Uonuma City, Niigata
TEL : 025-792-9900

Eco-plant Uonuma

Please follow the rules for garbage disposal

Put out the garbage at the designated collection sites

All residents must put out their garbage at the designated collection sites (such as "Gomi Station"), or deliver the garbage directly to the Eco-plant Uonuma.

It is against the rules to dispose of garbage at any collection site (such as "Gomi Station") outside the area you live in.

Sort garbage types properly before discarding (see page 2- for detail)

Improperly sorted garbage will not be collected.

Please sort your garbage in the proper manner, otherwise community leaders will have to go through all the trouble of doing it for you.

*Garbage with a yellow sticker must be returned to the owner, re-sorted in the proper manner, and put out on another collection day.

Check the collection day before you put garbage out

Collection schedules vary by district. Check the "Household garbage calendar" before putting garbage out.

Collection hours may change significantly due to weather and route changes.

Put garbage out by 8:00 a.m. on collection days.

Eco-Uo

Making garbage disposal smarter.
Garbage sorting app for smartphones

Scan the QR code below to download the app.

(for iOS)

(for Android)

Q: What is "Eco-Uo"? → The app "Eco-Uo" has the following features and it's downloadable for free.

Garbage Collection Calendar

You can see the calendar on the home screen and check your area's collection days at a glance.

Garbage Sorting Dictionary

For house cleaning, moving or daily disposal. You can look up how to sort and dispose of garbage anytime from your smartphone.

Garbage Disposal Procedure

Having trouble finding how to dispose of garbage! Use your smartphone to find out.

Alert feature

You can set whether to receive garbage disposal reminder and irregularity information.

Burnable garbage

Kitchen waste

Drain away as much liquid as possible.

Disposable diapers

Dispose of any fecal waste in the toilet.

Toys

Made of plastic, wood, etc.

Charcoal briquettes, other charcoal substances

Douse with water before disposal.

CDs, DVDs, cassette tapes

Clothes, shoes, cloth items

*These items are collected separately in the Yamato area.

Inquiries : [Minami-Uonuma City Waste and Recycling Affairs Section](#)
TEL 025-782-0339

Plastics

Reusable food containers, plastic products such as wash basins, CD, DVD cases (items which can fit into the designated garbage bags).

Tree branches, leaves

Cut branches with a diameter less than 5 cm and a length less than 50 cm and place them in the designated garbage bags.

Styrofoam items

Break items into pieces small enough to fit into the bag.

Rubber products

Absorb the oil in paper, or use a solidifying agent before disposal.
*Collected separately in Yamato area.

Inquiries : [Minami-Uonuma City Waste and Recycling Affairs Section](#)
TEL 025-782-0339

Cooking oil

Disposable razors

Wrap the blade in paper.

Disposable lighters

Completely discharge any gas from the lighter

When disposing of burnable garbage, use the designated garbage bag (blue).

Burnable garbage (blue)			
No.1 garbage bag	10 L	20 bags	320yen
No.2 garbage bag	20 L	20 bags	460yen
No.3 garbage bag	45 L	20 bags	640yen

Do not mix garbage types!!

- Due to the risk of explosion during incineration, do not place any poisons, agricultural chemicals, gas cans, etc. in the garbage.
- Seat cushions (long type), blankets, futons, and curtains are considered oversized garbage even though they are made of cloth.

Non-burnable garbage

Waste metal cans

Cans and bottles with a diameter of 15cm or less. (Items more than 15cm are considered as "oversized garbage")

Tableware, porcelain, pottery

Wrap any broken parts in paper since they may tear the garbage bag.
*Collected separately in Yamato area.

Inquiries : [Minami-Uonuma City Waste and Recycling Affairs Section](#),
TEL 025-782-0339

Waste glass bottles

Bottles 1.8 liters or less

Incandescent light bulbs

LED lamps: Note: Use No.6 large size garbage bag for all fluorescent lights (tubes).

Glass items

Wrap broken glass in paper since it may tear the garbage bag

Spray cans, gas cassettes

Completely empty and pierce the casing in a safe place before disposal.

Dry cell batteries

Button type batteries, and rechargeable batteries are not collected.

Sewing needles, Fishing hooks

For medical needles, please inquire Eco-plant Uonuma.

Do not mix garbage types!!

- Button-type batteries are not accepted. Please contact the store of original purchase or place them in a recycling box at an electrical appliance retailer, etc.
- Separate any wires and cords. If they are included with the machines, they may become entangled and cause a mechanical breakdown. *Use No.6 large garbage bags and make a reservation for the collection.
- Use No. 6 large garbage bags for umbrellas and fluorescent lamps. (The items are permitted to stick out from the garbage bag.)

Place them in the specified non-burnable garbage bags (green).

Non-burnable garbage (green bags)			
No.4 garbage bag	25 L	10 bags	200yen
No.5 garbage bag	45 L	10 bags	400yen

Plastic containers and plastic packaging (recyclable resource)

Place the following items in a separate bag. ① PET bottles, ② White plastic trays, ③ Other plastic containers

① PET bottles

Make sure they have the recycle logo

Remove the cap and rinse the inside of the bottle, then place in a garbage bag. (Place the cap with "other plastic containers")

Do not add any items other than PET bottles.

Please remove the labels as well.

- Do not cut
- Do not flatten vertically.

② White plastic trays

Make sure they have the recycle logo

Trays for fish, meat, natto and mushrooms

Wash before disposal.

③ Other plastic containers

Make sure they have the recycle logo

Colored trays

Containers for Tofu.

Plastic shopping bags

Dairy product containers

Shampoo and rinse bottles (The pump part is burnable garbage.)

Mikan orange nets

PET bottle caps

PET bottle label

Laundry detergent containers

Oil containers

Refillable bags

Instant noodle cups

Mayonnaise and ketchup containers

Rinse and dry the item.

Items which cannot be cleaned → Burnable garbage

"Containers" are defined as items into which products are placed (including bags). "Packaging" is defined as item used to wrap products. "Plastic containers and packaging" are items which are no longer needed after the product has been removed. These items display the PET logo.

Separate the items into three different types: ① PET bottles, ② White trays, ③ Other plastic containers. Place them in the designated garbage bags for containers and packaging (yellow).

Containers and packaging (yellow)

No.1 garbage bag	10 L	20 bags	160yen
No.2 garbage bag	20 L	20 bags	220yen
No.3 garbage bag	45 L	20 bags	300yen
